

Adjust the size of the paper using Scale Tool. Go to Layer > Scale Layer

On the Layers Panel, move the Template on top of the paper background

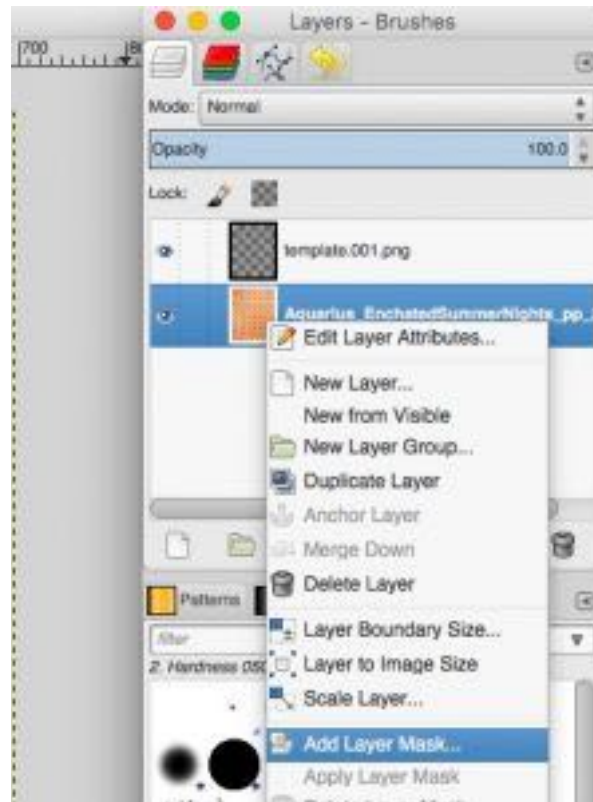

You should have a better view of the template now

Get the Fuzzy Select Tool and click inside the template

Go back to the Layers Panel and right click on the paper then select Add Layer Mask

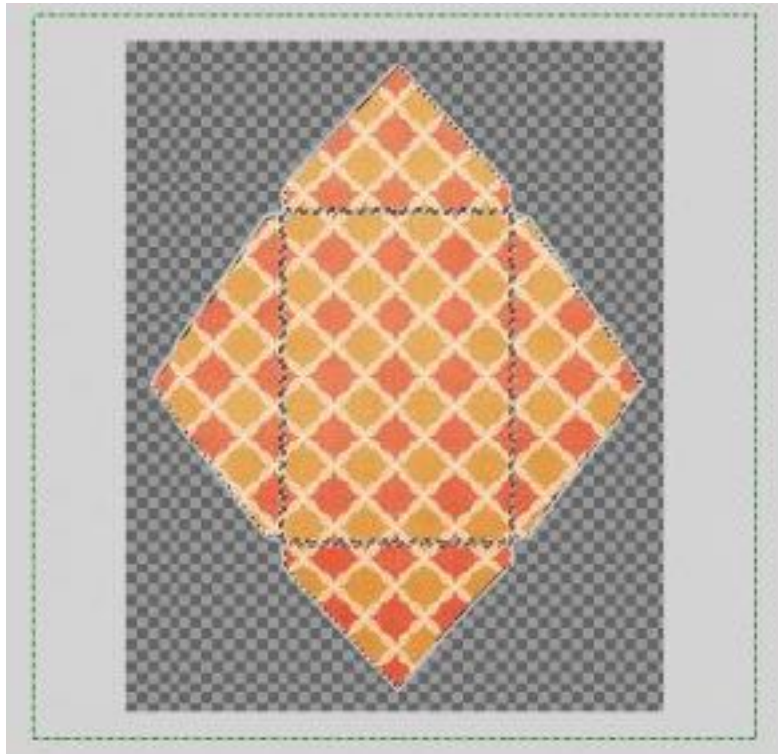

When you see a pop up menu, click on the “selection” button then Add

Your work should look something like this:

Save and print it out.

Now, if you have a kit like Enchanted Summer Nights, you'll be able to find a good element to use as an embellishment for the Gift Card.

Re-size and print it out also like what we did.

Cut the template and the element then fasten the sides of the template to form into an envelope but leave the top fold open like this:

Use a glue to attach the embellishment.

And finally here's our pretty gift card:
