

Digital Scrapbooking Tutorial – Make a puzzle from your photo and frame it

In this digital scrapbooking tutorial you learn how to create a puzzle from your photo and frame it in Photoshop Elements. You can use this technique for various things. You can create a collage and print it out but you can also use it as a basement for the digital scrapbooking layout.

1. Open the picture of your choice and place it on a 12×12 inch file. You might need to resize the picture according to the size of the photo.

2. Create a 12 by 12 inch background

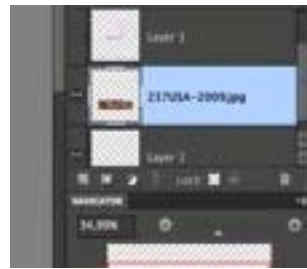

3. Place the picture on the file
